REMOVAL OF DEPOSITS FROM COPYRIGHT OFFICE

NOTICE is given to authors, copyright proprietors and other lawful claimants that they may claim and remove before January 1, 1961, any article of the following named classes of published works deposited for copyright between January 1, 1957, and January 1, 1958, not reserved or disposed of as provided by sections 213 and 214 of Title 17 of the United States Code and still remaining in the files of the Copyright Office at the time of the request for their removal. The classes of published works covered by this notice are:

Books and Pamphlets.
Contributions to periodicals.
Works of art; models or designs for works of art.
Reproductions of a work of art.
Drawings or plastic works of a scientific or technical character.
Photographs.
Prints and pictorial illustrations excluding prints or labels used for articles of merchandise.

Other published works and all unpublished works are excluded from this notice.

The request for the removal of any copyright deposit should be signed by the person entitled thereto or his duly authorized agent. Such request should identify the work by stating the title, author, copyright proprietor, registration number and year of deposit, and should be addressed to the Copyright Office, Library of Congress, Washington 25, D. C.

The Library of Congress catalog card for this publication is shown on the last page.

For sale by the Register of Copyrights, Library of Congress, Washington 25, D. C. Price for this part: $2.50 per issue, $5.00 per year.

Preface

The CATALOG OF COPYRIGHT ENTRIES is published by authority of sections 210 and 211 of Title 17 of the *United States Code*. Section 210 provides in part: "The current catalog of copyright entries and the index volumes herein provided for shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

The *Catalog* is subdivided to represent the classes of material listed in section 5 of said Title 17. The table at the end of this preface shows the organization of the *Catalog*, the symbols used with the registration numbers to distinguish the classes, and the prices of the semiannual issues. The annual subscription for each part is twice the price of a single issue and the complete catalog, including all parts, may be secured on a subscription basis for $20 a year.

The record of each copyright registration listed in the *Catalog* includes a description of the work copyrighted and data relating to the copyright claim (the name of the copyright claimant, as given in the application for registration, the copyright date, the copyright registration number, etc.). Available information in the records of the Copyright Office, including information relating to subsequent changes of ownership, can be obtained upon request and upon payment to the Register of Copyrights of the fee specified in section 215 of said Title 17 ($3 for each hour of time consumed) for the conduct of a search of the records.

In the case of each registration listed, except for renewals, the deposit of a copy (or copies) of the work has been made in accordance with the provisions contained in sections 12, 13, or 215 of said Title 17, or, in the case of published three-dimensional works of art, there has been compliance with section 13 of said Title 17, which provides for the deposit of identifying reproductions in lieu of the work itself. Foreign works, two copies of which were deposited with a catalog card and application for registration under the waiver-of-fee provision in section 215 of Title 17 of the *United States Code*, are indicated by a zero immediately following the alphabetical symbol in the registration number.

For a more complete description of the contents of this issue of the *Catalog* see p. vii.

Orders, payable in advance, for all parts of the *Catalog of Copyright Entries* should be sent directly to the Register of Copyrights, Library of Congress, Washington 25, D. C. Orders may be placed for individual issues, as subscriptions for one or more parts, or for the complete *Catalog*, and for periods of one or more years. All orders should state clearly the title and the inclusive dates of the part wanted. Checks or money orders should be made payable to the Register of Copyrights.

The Copyright Office welcomes inquiries, suggestions and comments on the content and organization of the *Catalog*. Such communications should be addressed to the Chief of the Cataloging Division, Copyright Office, Library of Congress, Washington 25, D. C.

Table of Organization

Each part listed in the table records all current registrations in the class or classes indicated by the alphabetical symbols given. In each case the first letter of the symbol is that of the class under which registration is made; the second, if any, is a designation added by the Copyright Office for the purposes of statistical analysis. A zero immediately following the symbol (e. g., AF0, EF0) distinguishes a foreign work deposited under the waiver-of-fee provision. The symbol R does not represent a class designated by the copyright law, but has been adopted by the Copyright Office to distinguish renewal copyright registrations. These are recorded in a separate section of those parts of the *Catalog* which cover the classes in which the works were originally

registered. Some parts also contain registrations made under other symbols if the subject matter or type of material is similar to that generally included in the part.

INTRODUCTION

PART 1 lists works registered in Class A and contributions to periodicals registered in Class B under the symbol BB.

The works listed include not only the current output of the publishing industry of the United States and many works in English and in foreign languages published abroad, but also the products of many specialized publishing enterprises. Thus, in addition to novels, biographies, poems, books on history, religion, etc., and other works of general interest, there are included business reports and yearbooks, trade catalogs and directories, manuals, instruction books, industrial and legal services, research studies in many fields, and, in some instances, printed matter attached to or accompanying games, filmstrips, and other articles.

Each work is described in a main entry which includes information pertinent to the copyright claim. Arrangement of entries is alphabetical under the name of the author (i.e. the person or organization principally responsible for the content of the work) or, in the case of some serials and certain other works, under the title. References lead to the main entries from the names of contributing authors (e.g. joint authors, editors) and claimants. Works for which the subsisting copyright has been renewed are listed separately in Renewal Registrations.

Each name listed appears in the fullest form and in the spelling found in the work and accompanying application. A name recorded in connection with more than one work and application may therefore sometimes appear in varying forms and degrees of fullness.

The Title Index covers both currently registered works and renewals with the following exceptions: titles of telephone directories and titles of those serials and other works which are entered under title. Renewal registrations are distinguished by the symbol "R" following the title.

For works currently registered, the main entry includes, in addition to the name or title under which it is filed, the following items of information if available and applicable:

1) Title.
2) Names of joint authors, editors, translators, etc., generally if no more than two.
3) Edition statement.
4) Place of publication for works published outside the United States.
5) Name of the first-named publisher when the publisher is not also the author or the claimant.
6) Number of volumes in the case of works in more than one volume.
7) Series statement.
8) Statement that the work was first issued in a newspaper or magazine or that it was published with or as a part of another work.
9) Names of authors given in the application which do not appear elsewhere in the entry.
10) Name of the employer in the case of a work made for hire, if so named in the application, together with the names of the employees when given.
11) Information contained in the application which relates to the registration of an earlier version of the work.
12) Brief statement of the new matter on which copyright is claimed, preceded by the abbreviation "NM," if this information is given in the application and is not indicated elsewhere in the entry.
13) Copyright symbol ©.

14) Name of the copyright claimant.
15) Date of publication as given in the application.
16) Registration number.

Whenever it is necessary to indicate a variation between the information given in the application and in the copy of the work with respect to the claimant's name or the date of publication, the data from the application are given first, followed by "in notice" and the data given in the work: e.g., © Richard Roe & Co.; 10Jan58 (in notice: 1957); A364300.

Works deposited in connection with copyright registration may be selected for inclusion in the collections of the Library of Congress. Library of Congress printed cards are available for many of the published works so selected. Orders for such cards or inquiries concerning them should be addressed to the Card Division, Library of Congress, Washington 25, D.C.

For renewal registrations, the main entry includes, in addition to the name of the author or the title under which it is filed, the following items of information if available and applicable:

1) Title.
2) Names of authors of renewable matter.
3) Edition statement.
4) Number of volumes if more than one.
5) Series statement.
6) Brief statement of the new matter on which the original copyright was claimed, preceded by the abbreviation "NM," if available in the renewal application.
7) Copyright symbol ©.
8) Date of original copyright.
9) Original registration number.
10) Name of the renewal claimant followed by a statement in parentheses, usually in abbreviated form, giving the basis of the renewal claim as supplied by the claimant; e.g., "John Doe (NK)" indicates that renewal copyright is claimed by John Doe as next of kin of the deceased author.
11) Date of receipt of the renewal application or fee, whichever is later.
12) Renewal registration number.

ABBREVIATIONS AND SYMBOLS

The following list includes abbreviations and symbols used in this catalog with specific copyright or bibliographic meanings. Definitions are not given for abbreviations in common use.

(A)	author
a.k.a.	also known as
adv.	advertisement
appl.	application
Aufl.	Auflage
augm.	augmented

COPYRIGHT REGISTRATIONS FOR BOOKS, PAMPHLETS, SERIALS, AND CONTRIBUTIONS TO PERIODICALS

July–December 1958

Books, pamphlets, and serials published in the United States	24, 385
Books in foreign languages published abroad	1, 544
Books in the English language first published abroad	285
Total	26, 214
Contribution to periodicals	1, 505

Renewals:

Books, pamphlets and serials	1, 828

These figures represent the number of registrations for books, pamphlets, serials, and contributions to periodicals for July–December 1958. The figures do not necessarily represent the exact number of entries to be found in this issue. Registration figures for other classes of material may be found in the respective parts.

BOOKS AND PAMPHLETS
INCLUDING SERIALS AND CONTRIBUTIONS TO PERIODICALS

CURRENT REGISTRATIONS

A list of domestic and foreign books, pamphlets, serials, and contributions to periodicals registered during the period covered by this issue. Arrangement is alphabetical under the name of the author or issuing body or, in the case of serials and certain other works, by title. References from the names of claimants, joint authors, editors, etc. and from variant forms of names are interfiled.
